---

Good afternoon parents, guardians & students,

Last week, the principal's update contained a flyer with information about the Rams Academy MCAS Preparation Program. Shawsheen Tech is excited to offer this program that takes place over the February vacation week. If this timeframe does not fit your schedule there will be an additional, free MCAS preparation program after-school beginning in February and concluding in March.

Please see the attached PDF document that highlights both the Rams Academy Vacation Program and the ELA After-School MCAS Preparation workshop.

Attendance of these programs is strongly encouraged for all sophomore students. The Department of Secondary Education's decision to increase in the score threshold over the past several years, further emphasizes the significance of attendance.

If you have any questions regarding these programs, do not hesitate to reach out to me directly at the email address below.

Sincerely,

*Mrs. Jessica Brierley*

MCAS Remediation Coordinator
